Guiding questions for break out groups

- Elements that build on what came before:
 - What new aspect / what new thing would add value building on the work that was already done in the initial two-year workplan?
- New elements:
 - What work has not yet been done in the initial two-year workplan that you think is important for work under the LCIPP?
- Synergies, holistic approach:
 - How can synergies be created between activity ideas that participants in the breakout groups bring?
