

A close-up, slightly blurred photograph of hands weaving on a loom. The threads are a mix of yellow, blue, and red, creating a colorful pattern. The hands are positioned in the center and lower right of the frame, with one hand holding a thread and the other guiding it through the loom's structure.

# Informal LCIPP contributors' briefing

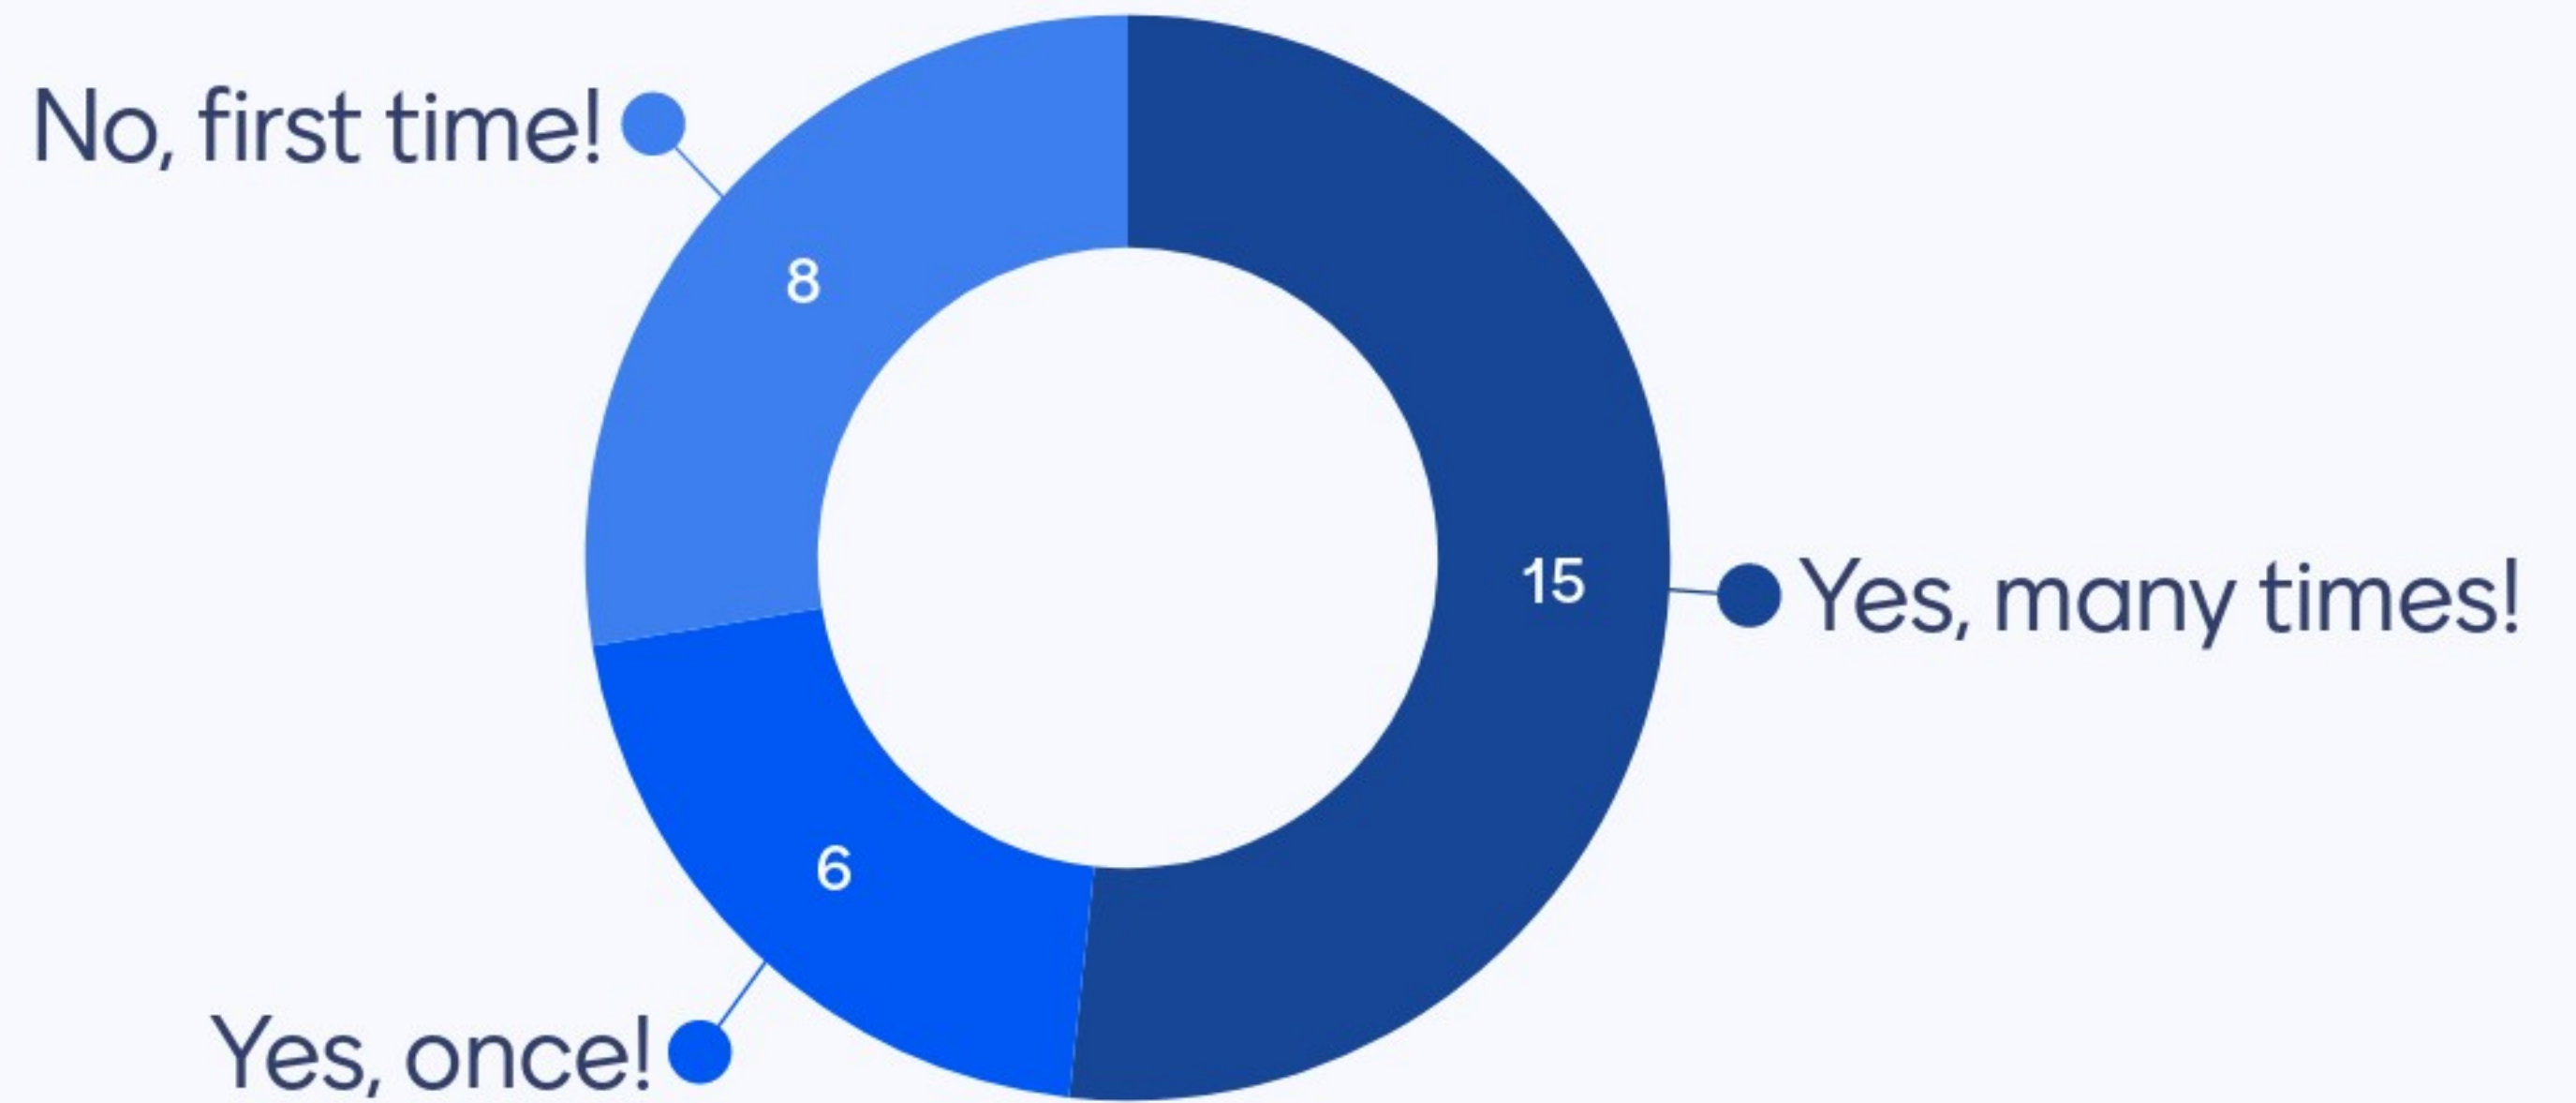

Tell us about yourself!

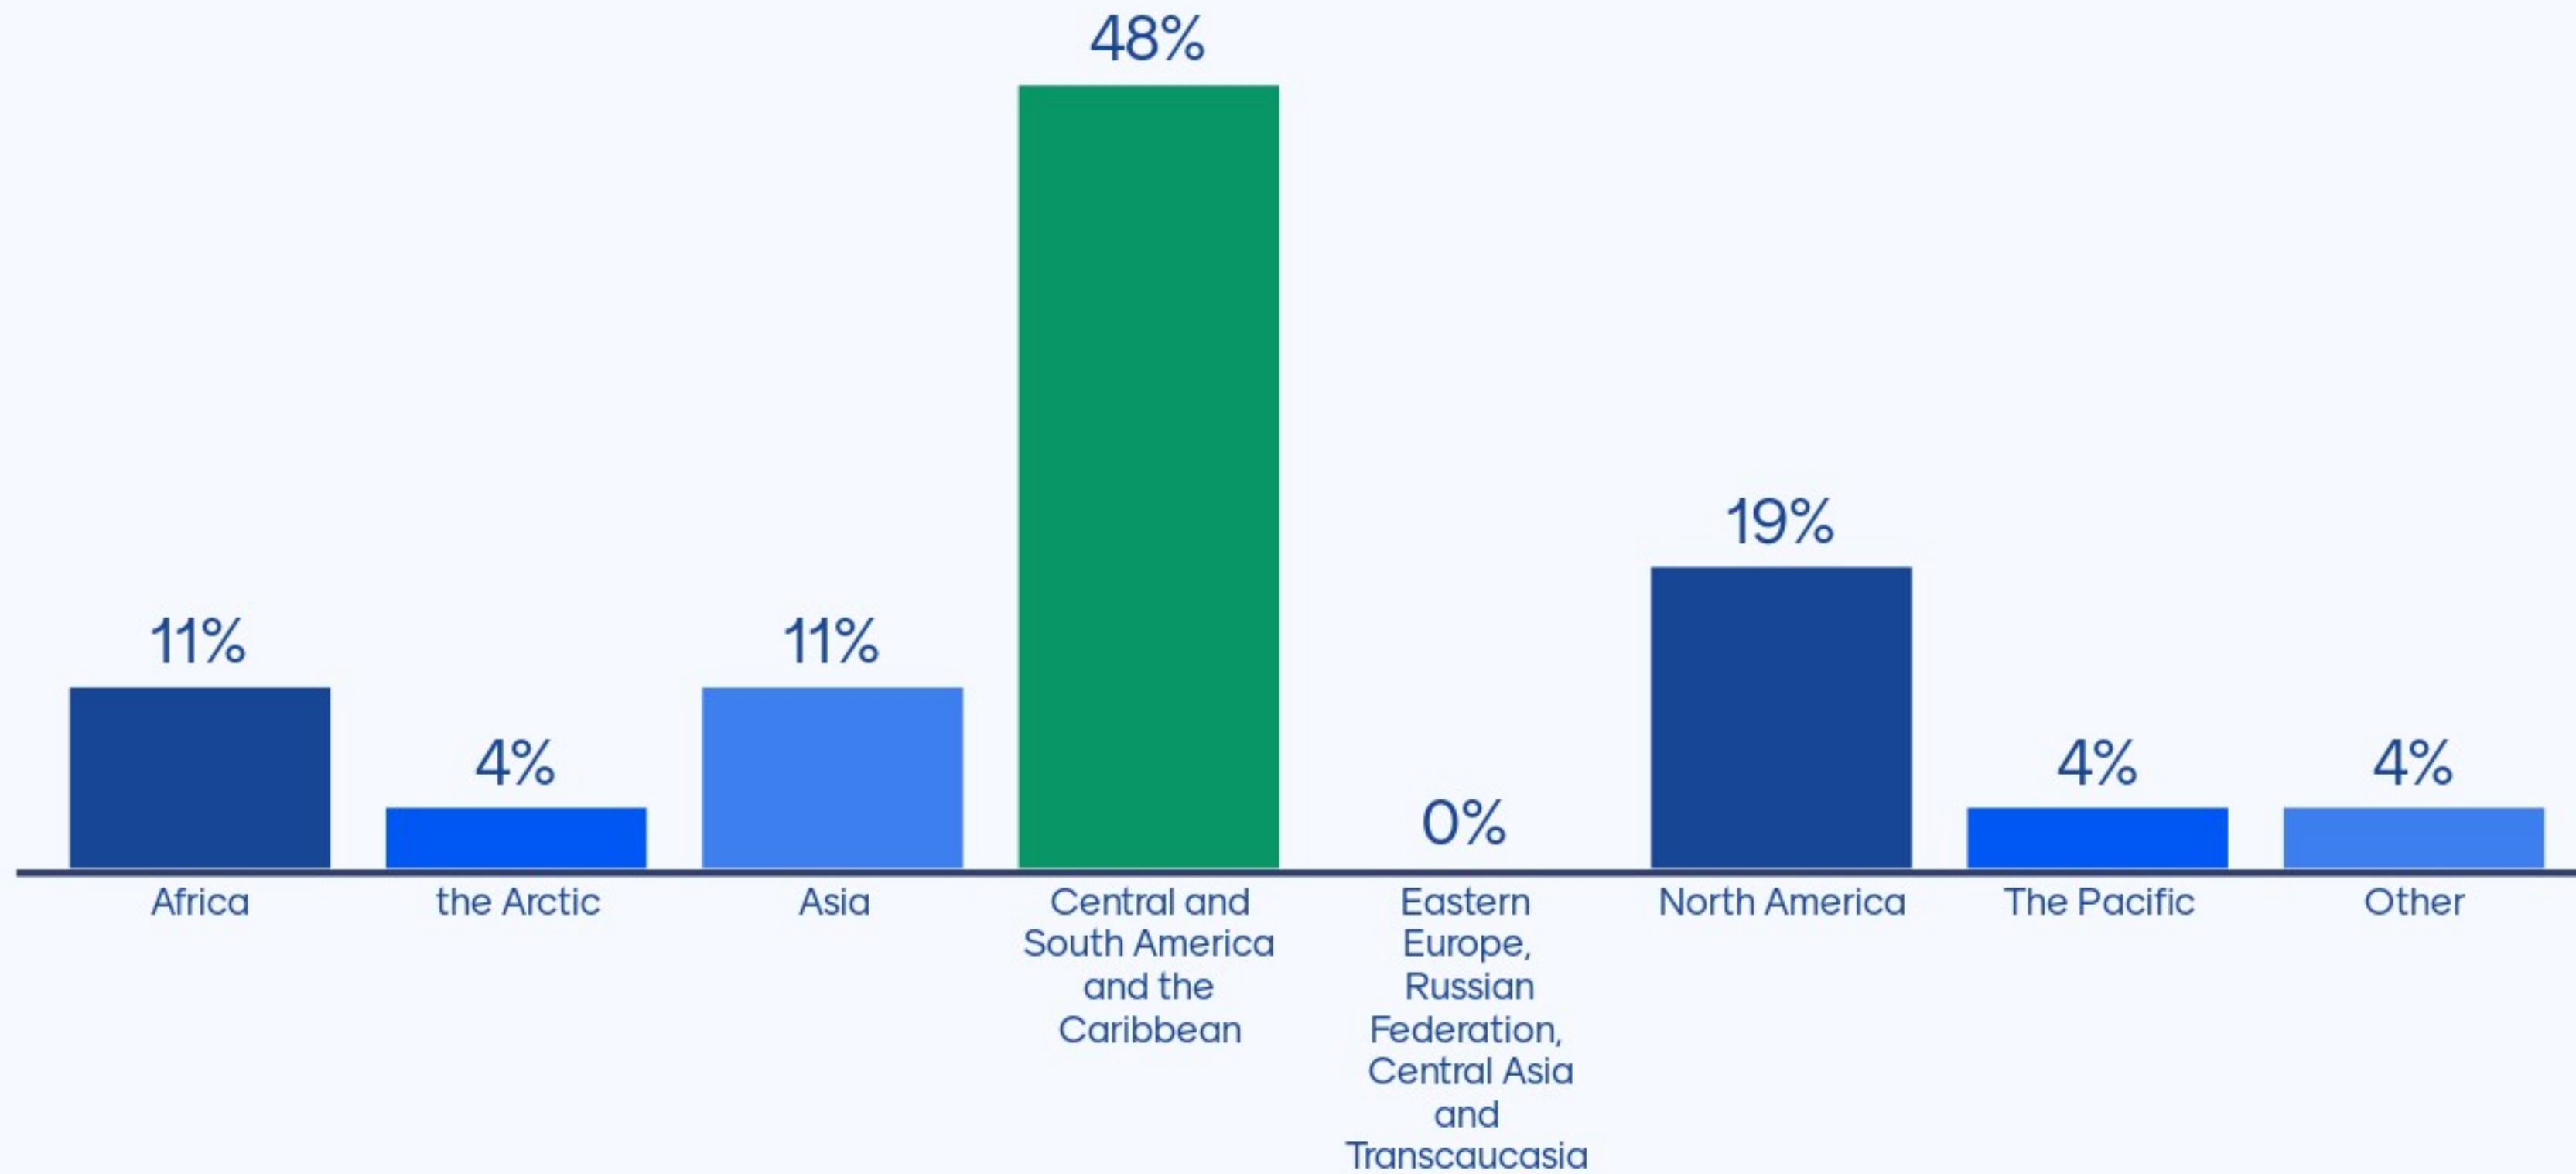

# Have you attended informal LCIPP contributors' briefing before?

# Which socio-cultural region do you associate with?

Use one word or phrase to describe key areas you working related to the knowledge and practices of indigenous peoples and local communities.

# For the area you are working on, how should change happen?

building alliances by bringing people, citizens and groups together

Co-operation between community, government, scientists and private sector

Championing traditional and holistic land management via dispelling the myth of superiority surrounding euro-centric resource extraction.

Power redistribution

Recognition of indigenous peoples as allies

Participation

funding to implement policy

Indigenous youth participation

Promote Indigenous sustainable communities not supermarkets

# For the area you are working on, how should change happen?

Any policy must be based on existing field reality.

Should happen with Indigenous Peoples getting sovereignty back.

Community leadership aligned with national plans and policies which in turn are aligned with agreed global goals

Government should be open engagement with indigenous people and indigenous people recognitions

Change of relationships, get passed biases

IPLCs direct access to funding

Mayor participación de los Pueblos Indígenas en la construcción de políticas sobre CC

Participation

influencing Food and Land Use systems

# For the area you are working on, how should change happen?

Coordination between government and communities in climate change practices

Recognize the human right to food and food systems of indigenous peoples

Capacity building in indigenous communities

Construir alianzas para a defenza y Gobernanza territorial

Recognition of indigenous peoples and local communities as partners

do little steps, repeatedly

Just approaches and wider lenses in all processes - participation processes , governance models etc.

Change how we see and interact with nature

IPLCs participation in decision-making (local to global level)

# For the area you are working on, how should change happen?

Direct funding by IPs

Scales of governance that protect nature and people

participación efectiva

weak group institutional structures

Direct financing for indigenous peoples and local communities

Indigenous people facing multiple evictions from their ancestral land and government not recognizing these communities

Greed

Produce food with agroecological practices

Las iniciativas locales deben ser articuladas con las acciones nacionales y acciones globales por ahora hay un divorcio total, esto hay que superar

# For the area you are working on, how should change happen?

Understanding by decision-makers on the urgency to discuss indigenous peoples' contribution

greed

I work on Climate Change and Human Rights - a big challenge is the power of oil companies within the UNFCCC. Another challenge is the problems of false solutions as established by the Paris Agreement Article 6, market approaches, credits and offsets

# Use a word or phrase to describe what challenges you face in the area you work on to help elevate climate ambition and action.

Most NDCs do not include IPLCs

Political reticence, slow recognition of the need for change

Ignorance

Intimidation of our defenders

Lack of parties recognition of rights of IPs

Colonial marginalization of voices, needs, lives, and the recognition of impacts. Institutionalized racism refusing us a seat at the table.

more commitment and real actions on climate change for communities

Reconocimiento de derechos de pueblos indígenas

Recognition of IPLC contribution to mitigation through guardianship of tropical forests and other ecosystems

# Use a word or phrase to describe what challenges you face in the area you work on to help elevate climate ambition and action.

Acceso económico para los Pueblos Indígenas para que participen en las negociaciones nacionales e internacionales sobre CC

indigenous people are seen as an obstacle not as a partner

Funding going to short term political issues rather than long term stewardship

Land grabbing, continued colonisation and "coloniser values" and racism on the ground These things affect everything - from local level to national level.

Lack of recognition of IPs as actors

Las acciones locales debe ser articulada con las acciones nacionales y esto con las acciones globales

Traditional systems are not being considered while prescribing climate actions.

Experts no sharing their experiences or spaces.

Indigenous people evictions from their land

Use a word or phrase to describe what challenges you face in the area you work on to help elevate climate ambition and action.

greed

Appreciating diverse ways of knowing, and co-producing knowledge

Use of indigenous languages at nacional and global levels

Thank you for your participation
