Activity 8 background (LCIPP Annual Youth Roundtable)

Activity 8 of the workplan calls for the organization of “an annual round table, in collaboration with indigenous youth and youth from local communities, as well as with broad and gender-balanced youth representation from each of the United Nations indigenous socio-cultural regions, to explore gender-responsive ways and means to strengthen the engagement of youth, and participation in intergenerational knowledge-sharing and continuing/strengthening practices on the ground, as well to contribute to climate policies and actions at the national and international level”. These annual youth roundtables contribute to the implementation of all three functions of the LCIPP: Knowledge, Capacity for engagement and Climate change policies and actions.
