CLIMATE
PROMISE

HELPING COUNTRIES REACH THEIR CLIMATE GOALS

We work with more than 140 countries and territories to reduce their greenhouse gas emissions and adapt to the challenges of climate change.

The Equator Initiative

How we do it:

- Equator Prize
- Equator Dialogues
- Equator Knowledge

Recognize the success of
local and indigenous
initiatives

Create opportunities and
platforms to share
knowledge and good
practice

Inform policy to foster an
enabling environment for
local and indigenous
community action

Develop the capacity of
local and indigenous
initiatives to scale-up
their impact.

The Nature Pledge

- Work Areas
 - Biodiversity conservation
 - Biodiversity finance
 - Digital for Nature
 - Environmental Governance
 - Integrated Landscape Management
 - Local action
 - Ocean Governance
 - Sustainable Food systems
 - Water Governance

RESPECTIVE PROJECTS

Learning for Nature

219

e-learning opportunities

47,104

forum engagements

104,718

enrolled students

206

countries

The Learning for Nature platform aims to:

Promote best practices in conservation and sustainable development

Develop the capacity of biodiversity policymakers, practitioners, and local and Indigenous communities

Catalyze ongoing peer-to-peer learning and facilitate knowledge exchange

Example: Course on Introduction to Forest Mapping and Monitoring Tools for Indigenous Peoples and Local Communities

<https://www.learningfornature.org/en/>

Opportunities for Collaboration

Co-Developing Climate Policies with Indigenous Peoples' Leadership

Establishing Safeguards and Accountability Mechanisms

Inclusive Dialogue Facilitation

Capacity-Building and knowledge Exchange

Support of Indigenous-Led Nature-Based Solutions

Facilitate Direct Access to Climate Finance.
