Agenda Item 3b: Strategic Implementation of the Baku Workplan – Unpacking Collective Approach 4,5 and 6

Collective Approach 4: Collaboration With Constituted Bodies and Under Workstreams of the UNFCCC

This approach aims to enhance the ethical and equitable engagement of Indigenous Peoples and local communities in meetings, forums and development technical documents of relevant constituted bodies and UNFCCC workstreams. It promotes the inclusion of knowledge holders in the work of technical experts and working groups, in a manner that respects and promotes the rights-based approach.

Collective Approach 5: Enhanced Engagement with Parties

This approach strengthens collaboration with Parties to ensure that national climate policies are informed by the values, worldviews, knowledge systems and priorities of Indigenous Peoples and local communities. It includes targeted outreach to national focal points and an annual dialogue for Indigenous Peoples, local communities, and Parties to promote the ethical and equitable integration of values and knowledge systems of Indigenous Peoples and local communities in the design and implementation of NAPs, NDCs and national communications.

Collective Approach 6: Overall Strategic Planning

This approach provides a dedicated space for the FWG to identify annual LCIPP theme(s) and ensure coherence and synergy across the Baku Workplan's collective approaches. It supports alignment with key timelines and milestones within and beyond the UNFCCC process, thereby strengthening the overall impact and effectiveness of the workplan.
