

LCIPP Regional Gathering for the Pacific

Nadi, Fiji | 18- 21 August 2026

I. Background

COP 29 welcomed the Baku Workplan of the Local Communities and Indigenous Peoples Platform (LCIPP). Collective Approach 2 of the Baku Workplan aims to amplify the engagement of all Indigenous Peoples and local communities from the respective regions in the UNFCCC process to support the repositioning of regional climate narratives in line with the FWG vision and strategy.

The LCIPP regional gathering for the Pacific region will deliver on two mandated activities under this Collective Approach:

2.1 Convene at least two regional (or biregional) gatherings per year, organized for and in a different United Nations Indigenous sociocultural region or United Nations region, with the direct involvement of elders, practitioners, knowledge holders, women and youth from each region in the planning and implementation of these gatherings relevant to the annual theme selected by the FWG.

2.2 Hold a regional dialogue for Indigenous Peoples, local communities, Parties, constituted bodies, regional IPOs and other LCIPP contributors focusing on integrating diverse knowledge systems, values and practices into regional efforts to address climate change. (The outcomes from activity 2.1 will be presented in this dialogue.)

Collective Approach 2 also contains several deliverables to capture the discussions from the regional gathering. This includes:

2.4 Produce summary reports documenting the discussions at the regional (or biregional) gatherings and the regional dialogue, including recommendations and opportunities for further engagement.

2.5 Compile case stories in diverse formats that feed into the work of relevant constituted bodies and work under UNFCCC workstreams, as appropriate and in accordance with their respective mandates.

2.6 Integrate recommendations and concrete examples (from deliverables 2.4–2.5), into relevant work of key constituted bodies and UNFCCC workstreams, in line with the annual theme selected by the FWG.

II. Design of the Agenda

At its 15th meeting, the FWG agreed to take into account the approaches and the outcomes from the LCIPP Biregional Gathering for the Asia and Central and Eastern Europe, Russian Federation, Central Asia and Transcaucasia regions, as appropriate, in designing and implementing future LCIPP regional and biregional gatherings.

In line with this decision, the co-leads of the LCIPP Regional Gathering for the Pacific have used multiple interconnected methods to guide the design of the agenda. These include:

- **Multi-pathway outreach approach:** To support the FWG members in identifying knowledge holders and practitioners from Indigenous Peoples and local communities from the Pacific

- **LCIPP framework for Regional and Biregional Gatherings¹:** To ensure that each segment of the gathering is carefully curated to inform, but also gradually transform the global processes in shaping and enacting climate actions.
- **Living cultural expressions:** To create space for knowledge holders to share living cultural and ceremonial expressions, including cultural immersion, rituals, oral recitations and other forms of ceremonial practice to recognize and honor diverse ways of knowing.
- **Weaving in concepts and terminologies from the Pacific:** To ground the agenda in Indigenous Pacific concepts and terminologies, ensuring that the gathering reflects Indigenous Peoples' knowledge systems, values and worldviews and provides space for the perspectives of local communities.
- **Responses to LCIPP calls for submissions:** To provide space for knowledge holders to share their views on the impact of the work of the LCIPP to date and to reflect on possible activities, priorities, and thematic focus areas for the next LCIPP workplan for 2028–2031 and the review of the FWG in 2027, pursuant to decision 14/CP.29.

III. Preparations for the Regional Gathering

To support the meaningful participation of knowledge holders and practitioners from Indigenous Peoples and local communities, the Facilitative Working Group (FWG) of the LCIPP will:

- i. provide an orientation guide to help participants familiarize themselves with the LCIPP, its mandate and functions, and the role of the FWG.
- ii. organize a virtual preparatory briefing for all funded participants on 11 August (TBC). The briefing will help foster a shared understanding of the objectives and agenda of the regional gathering.
- iii. distribute case story templates as a reference for knowledge holders and practitioners to support their preparation for the gatherings and articulation of stories from their Peoples and communities.
